## Profile Summary

Full Stack Web Developer with hands-on experience in MERN stack development using React.js, Node.js, Express.js, and MongoDB. Skilled in building RESTful APIs, JWT-based authentication, and responsive user interfaces. Seeking an entry-level Full Stack Developer role.

## Professional Skills

- Languages:** JavaScript (ES6+), C, JAVA, HTML5, CSS3
- Frontend:** React.js, Next.js, Redux, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, REST APIs
- Database:** MongoDB, Firebase
- Tools:** Git, GitHub, VS Code, Postman
- Key Feature:** AI API Integration & Prompt Engineering

## Soft Skills

- Analytical Problem Solving
- Rapid Technical Adaptability
- Creative Design Thinking
- Continuous Learning
- Attention to Detail
- Team Collaboration

## Web Development Projects

### Employee Directory Application | React.js, JavaScript, CSS

- Developed a responsive employee management system using React.js
- Implemented search, sorting, and filtering functionality for real-time data handling
- Designed reusable React components for scalable UI architecture

### Admin Dashboard Application | Node.js, Express.js, MongoDB

- Built RESTful APIs using Node.js and Express.js following MVC architecture
- Integrated MongoDB for efficient data storage and CRUD operations
- Implemented backend logic for user and content management

### AI Image Generator | API Integration, JavaScript, React.js

- Developed a text-to-image generation application using third-party AI APIs
- Managed asynchronous API calls and loading states
- Rendered high-quality images based on user-generated prompts

### AI-Powered Chat Application | React.js, LLM API Integration

- Built a real-time chat interface using React.js
- Integrated Large Language Model (LLM) APIs for natural language responses
- Optimized performance for instant message rendering

## Education

### Bachelor of Science in Information Technology

Vidhyadeep University, Olpad, Surat.

2024 - 2027 (Expected)

## Certifications

### Full Stack Developer

Red &amp; White Institute, Adajan, Surat.

2024 - Ongoing

## Interests

- Mobile App Development
- Learning New Technologies
- AI Based Projects

## Certificates

### Bootstrap Project - PhonePe UI Clone

- Unstop — Certificate of Completion  
(Hands-on Bootstrap Project)

### TechWar 2024 (IT & Design Hackathon)

- Red & White Multimedia Education —  
Certificate of Participation
